Didn't seem worth the time - I could bite!"

These lines show that the poet did not realise the importance of regular brushing and proper hygiene, when she was child. She did not care for her teeth daily. She thought it was useless and worthless to clean her teeth after eating anything.

(b) Why did the poet go to the dentist? How could she have avoided it?

Answer:

The poet went to the dentist to get her teeth examined. She had developed cavities in her teeth due to unhealthy eating habits and irregular brushing of teeth.

She could have avoided it if she had taken proper care of her teeth by brushing them properly and regularly.

(c) "If you got a tooth, you got a friend." What do you understand from the line?

Answer:

A tooth is like a friend. As a lost friend can never be regained, a lost tooth can never grow again. It cannot be regained or made naturally.
