6. Why does a burning candle go out when you blow on it?

Answer: When we blow on candle, the hot air around the candle gets removed and it brings down the temperature of candle below the flash point. Thus, a candle goes out because no fuel can burn below its flash point.

7. Spraying water is not a good way of putting out an oil fire or an electrical fire. Why not?

Answer: Spraying water is not a good way of putting out an oil fire or an electrical fire. If water is sprayed onto an oil fire, the oil will float to the top of the water and continue to burn. This can be very dangerous because water can flow quickly carrying the burning oil with it and spreading the fire. Similarly, The person spraying water on an electrical fire might receive an electric shock and be killed.

8. What are some of the things you should do to prevent a fire at home and in the school?

Answer:

Some of the things we should do to prevent a fire at home and in the school:

- (i) Precaution is better than cure. We should be alert about the use of inflammable substances and handle it with care.
- (ii) There is always possibility of catching fire in old buildings of home and school due to short circuits. Therefore, over loaded wires should be replaced with new ones and Fuse should be checked at regular interval.
- (ii) By spreading the knowledge about the handling of fuel, its flash point and about its protection after an accident.

- (iv) Fire extinguisher should be installed and old wiring must be replaced . Keeping the contact number of fire police on speed dial in case if little accident may happen.
- (v) Never taking the little accident of fire lightly as it may lead to greater one and finding a way out so that it may not happen in future. Not storing inflammable or combustible things like kerosene and petrol in our homes and in the school.

#### Working with Language

##### 1. Read the following sentences.

To burn paper or a piece of wood, we heat it before it catches fire. We generally do it with a lighted match. Every fuel has a particular temperature at which it burns.

The verbs in italics are in the simple present tense. When we use it, we are not thinking only about the present. We use it to say that something happens all the time or repeatedly, or that something is true in general.

Find ten examples of verbs in the simple present tense in the text 'Fire: Friend and Foe' and write them down here. Do not include any passive verbs.

Answer:

Combines  
Comes  
Catches  
Blow  
Has  
Absorbs  
Means  
Allow  
Lowers  
Stops  
Cuts  
Burns
