Question-5

Which of the iron tools shown on page 87 (of the NCERT textbook) would have been important for agriculture? What would the other tools have been used for?

Answer:

The iron tools shown on page 87 are: sickle, tongs, and axe. The ones that would have been used for agriculture were—sickle and axe.

Iron tools (i) Tongs (ii) Axe (iii) Sickle

Tongs would have been used to hold things without actually touching them.

Question-6

Compare the drainage system in your locality with that of the cities mentioned in the lesson. What similarities and differences do you notice?

Answer:

The drainage system in our localities is well-planned. The same system was adopted in the times mentioned in the lesson. Both the systems are found to be similar in many ways. The only difference that we find in the modern and the past systems is that the past system was made of mud, bricks and thatch. They could not survive for long. They were not well-maintained, but today we have well-maintained and developed drainage system. It is made of solid materials. It lasts long.

Question-7

If you have seen crafts persons at work, describe in a short paragraph what they do.

[Hint. How do they get the raw materials, what kind of equipment do they use, how do they work, what happens to the finished product.]

Answer:

I have seen crafts persons like weavers, blacksmiths, goldsmiths in villages and cities. Weavers are mostly seen in villages. I saw them running their spinning wheel or handmill. First they collect the cotton balls, they weave thread and then they weave clothes. After that they sell it in the market.

Question-8

List the functions performed by men and women who live in your city and village. In what ways are these similar to those performed by people who lived in Mathura? In what ways are they different?

Answer:

In the city I live, I see men and women working to feed their families. Mostly men work in offices and other establishments. Women also work in offices these days. In a city like Mathura, people worked to provide food items to the city-folks because it was located at the intersection of two major trade and travel routes. Life of people of our cities and that in Mathura was in no way much different.

I. MULTIPLE CHOICE QUESTIONS

Choose the correct option to complete the statements given below:
