

Squares and Square Roots Ex 3.9 Q18

Answer:

We have to find $\sqrt{21.97}$

From the square root table, we have:

$$\sqrt{21} = \sqrt{3} \times \sqrt{7} = 4.583$$
 and $\sqrt{22} = \sqrt{2} \times \sqrt{11} = 4.690$

Their difference is 0.107.

Thus, for the difference of 1 (22 - 21), the difference in the values of the square roots is 0.107.

For the difference of 0.97, the difference in the values of their square roots is:

$$0.107 \times 0.97 = 0.104$$

$$\therefore \sqrt{21.97} = 4.583 + 0.104 \approx 4.687$$

Squares and Square Roots Ex 3.9 Q19

Answer:

$$\begin{array}{l} \sqrt{110}=\sqrt{2}\times\sqrt{5}\times\sqrt{11}\\ =1.414\times2.236\times3.317 \\ \text{(Using the square root table to find all the square roots)}\\ =10.488 \end{array}$$

Squares and Square Roots Ex 3.9 Q20

Answer:

$$\begin{array}{l} \sqrt{1110} = \sqrt{2}\times\sqrt{3}\times\sqrt{5}\times\sqrt{37}\\ = 1.414\times1.732\times2.236\times6.083 \\ = 33.312 \end{array}$$
 (Using the table to find all the square

Squares and Square Roots Ex 3.9 Q21

Answer:

We have:

$$\sqrt{11} = 3.317$$
 and $\sqrt{12} = 3.464$

Their difference is 0.1474.

Thus, for the difference of 1 (12 - 11), the difference in the values of the square roots is 0.1474.

For the difference of 0.11, the difference in the values of the square roots is:

0.11 × 0.1474 = 0.0162

$$\therefore \sqrt{11.11} = 3.3166 + 0.0162 = 3.328 \approx 3.333$$

Squares and Square Roots Ex 3.9 Q22

Answer:

The length of one side of the square field will be the square root of 325.

$$\therefore \sqrt{325} = \sqrt{5 \times 5 \times 13}$$

$$= 5 \times \sqrt{13}$$

$$= 5 \times 3.605$$

$$= 18.030$$

Hence, the length of one side of the field is 18.030 m.

Squares and Square Roots Ex 3.9 Q23

Answer:

The area of the rectangle = 240 m \times 70 m = 16800 m² Given that the area of the square is equal to the area of the rectangle. Hence, the area of the square will also be 16800 m².

The length of one side of a square is the square root of its area.

Hence, the length of one side of the square is 129.60 m
